

**Rockfon Lilia
Acoustic Suspended Ceiling**

Rockfon Lilia

Rockfon offers new economical Rockfon Lilia.

Advantages of Rockfon Lilia acoustic suspended ceilings:

- Humidity and sag resistance – up to 100% RH
- Superior sound absorption properties (NRC: 0.70)
- Smooth white surface
- A1 Reaction to Fire
- Easy Installation
- Rockfon quality with affordable price

Rockfon Lilia suspended ceilings are the best choice for those who are seeking for a product featuring aesthetics, stability, safety and high cost-effectiveness.

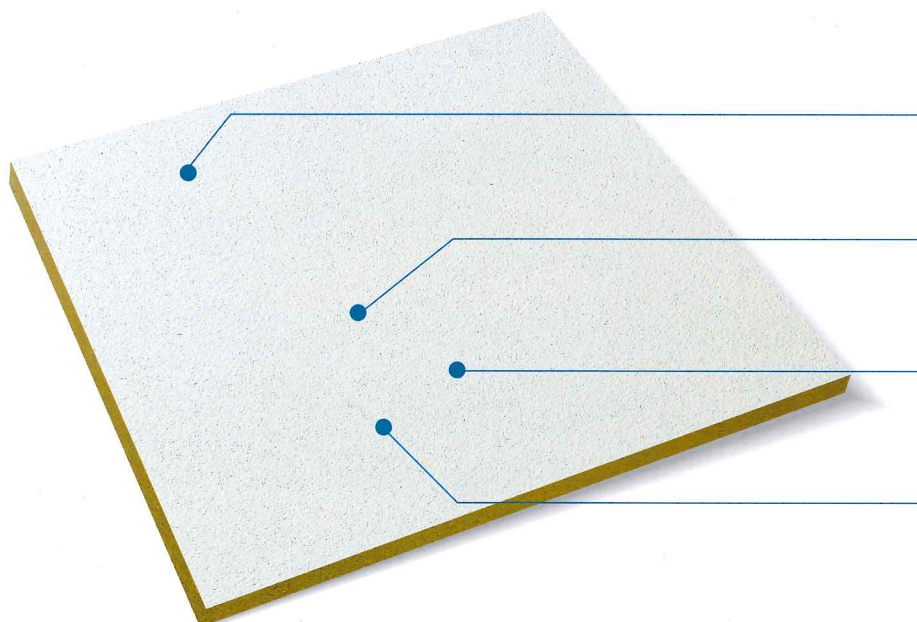

Rockfon Lilia products, being made of 100% ROCKWOOL (stone wool), have good stability and their shape and size would not change over time. Rockfon Lilia products are not sensitive to humidity and can prevent themselves from biotic factors including fungus and mould because they provide no sustenance for micro-organisms to consume.

Rockfon Lilia are light in weight and won't lay great burden to the ceiling structure, thus allowing lower transportation costs and easier installation. The tiles are easy to transport, cut and install.

Rockfon Lilia tiles are smooth in surface without any perforation, which ensures the elegant and smooth appearance of the whole ceiling.

Rockfon Lilia Performance

Product	Edge Type	Module Size (mm)	QTY m2 / Box	Pieces / Box	Demountable	Boxes/Pallet	Installation system	Performance
